What are the benefits of vinyl fence?

Gaston Fence Co. offers a wide variety of vinyl fence options

- **Maintenance-free – Maintaining a vinyl fence is easy and very cost effective. Is your fence beginning to show signs of use? By simply following the manufacturer’s recommendations and using mild soap and water, you’ll be able to restore your fence to like-new condition. No painting, staining, or sanding required – Ever.**
- **Resistant to insects and corrosion – Vinyl is impervious to wood boring insects and termites. Safe, strong, and durable with splinter-free surfaces - When not abused, vinyl has been known to withstand twisting, splitting, and warping.**
- **Safe for pets and children – Our offered products are lead-free and manufactured using no harmful chemicals.**
- **With options available, customizing your fence is easy and quick. In our showroom, we have color samples available to choose from and our trained staff can aid you in selecting the style that is most complimentary to your property and needs.**

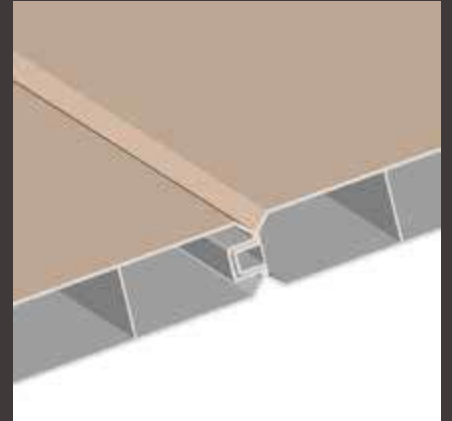

A beautiful fence may also be very useful. Depending on the overall look you wish to achieve, there are many benefits to investing in a particular style of fence. With a variety of products and materials from which to choose, finding the perfect fence for your needs is simple.

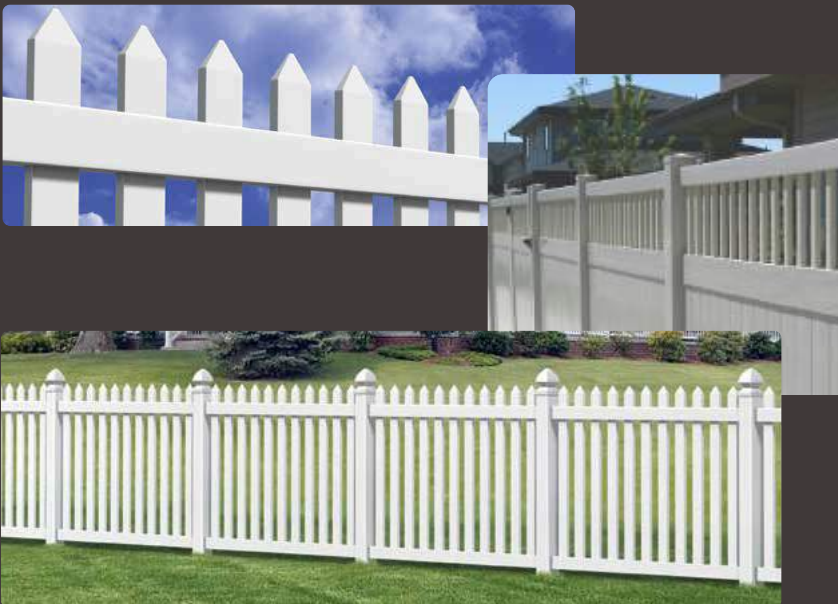

Using "Green" products means that we're not only preserving our natural resources but we're also helping to eliminate excess PVC waste by using products that have been and/or are capable of being recycled. Your new vinyl fence will be both beautiful and durable in addition to Eco-Friendly!

With routed construction and manufacturing facilities on-site, your product is custom made just for your specific project to look good from every angle.

Our privacy fence is made using interlocking tongue and groove boards for the ultimate in privacy.

Your picket fence may be customized to suit the design style to fit your needs. With many options and colors from which to choose, you're only limited by your own creativity.

All of our vinyl fence materials carry a Limited Lifetime Warranty

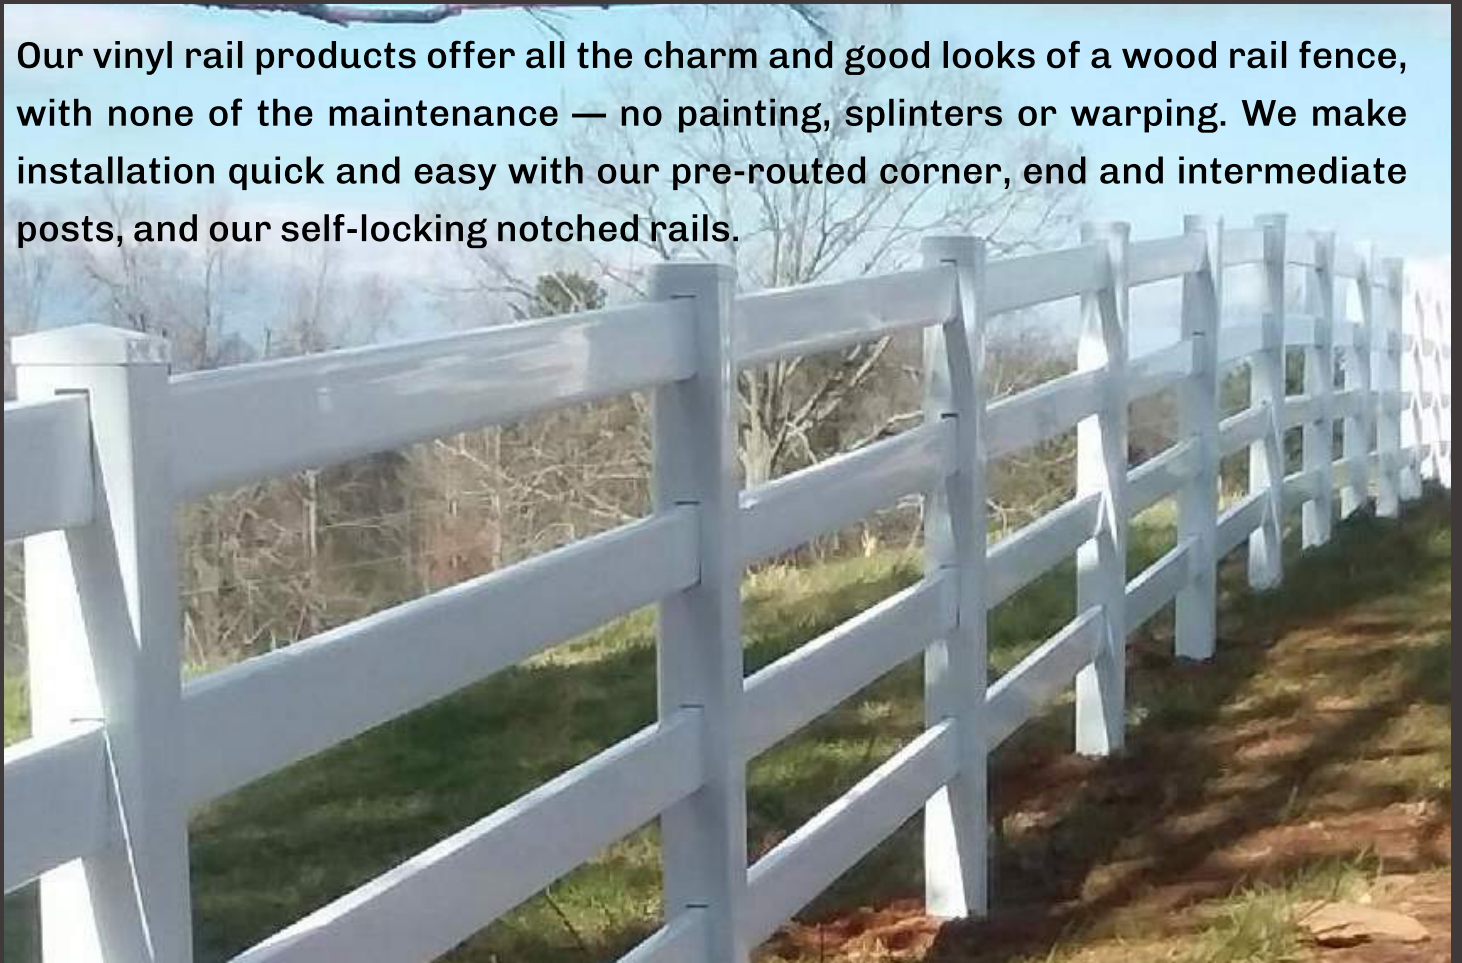

Determining the number of rails also determines the height best suited for your needs:

- 2 Rail = 36"
- 3 Rail = 48"
- 4 Rail = 60"

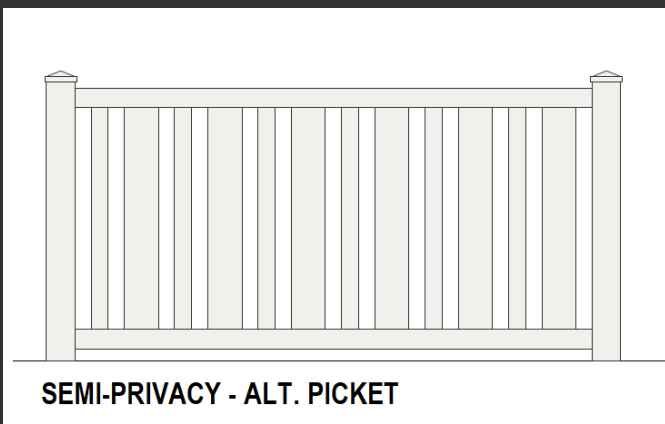

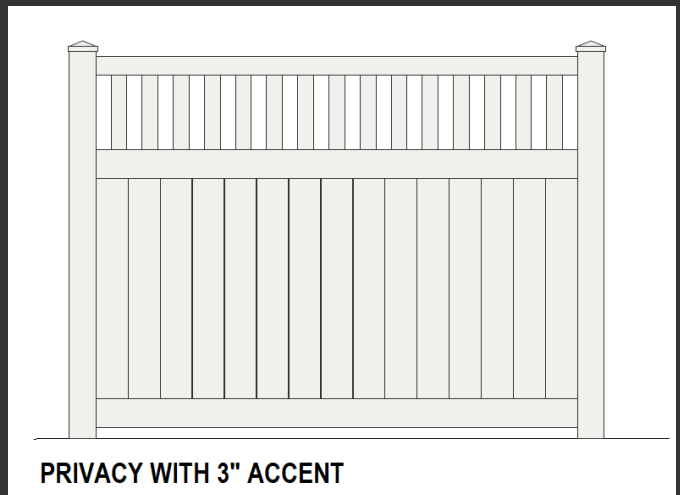

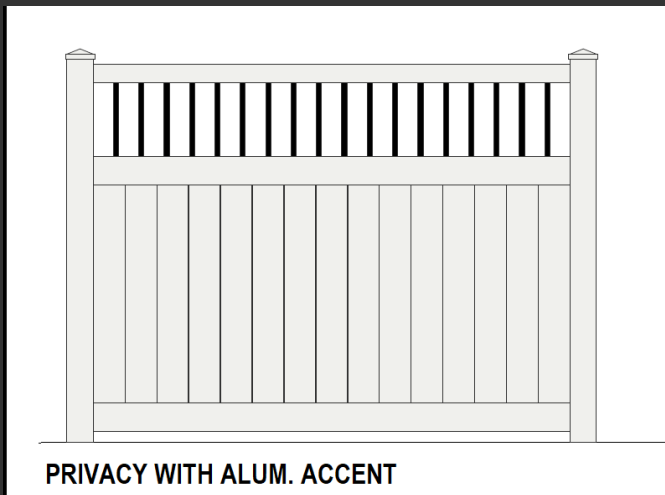

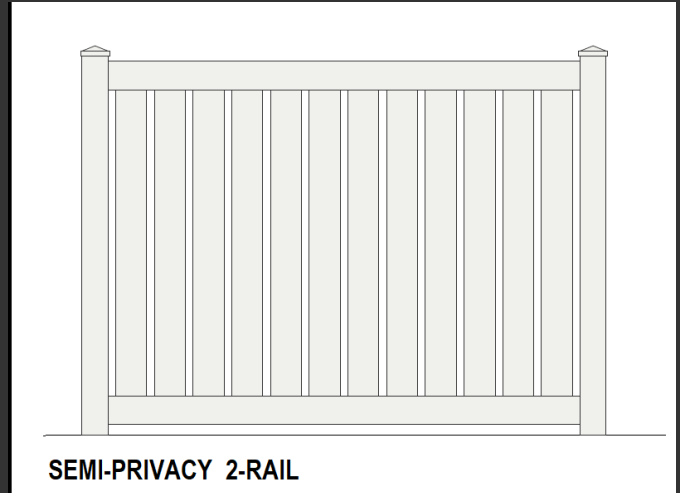

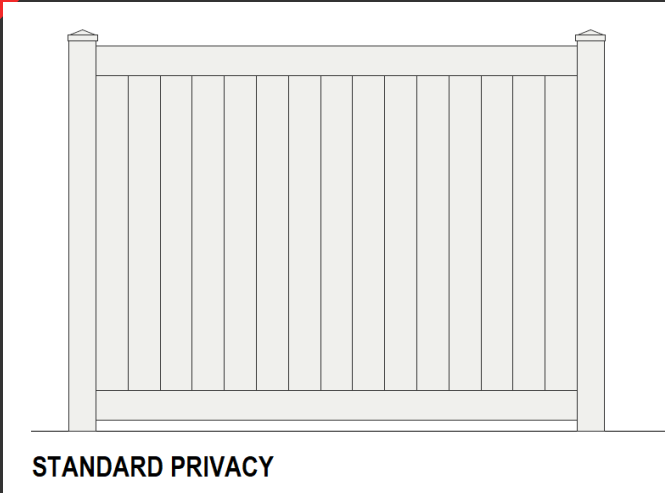

Our vinyl rail products offer all the charm and good looks of a wood rail fence, with none of the maintenance — no painting, splinters or warping. We make installation quick and easy with our pre-routed corner, end and intermediate posts, and our self-locking notched rails.
