

Access Control Gates

Access control technology and gate operators allow proactive protection to individuals and areas within the property. With this technology, many potential problems may be avoided. This adds another layer to complement your intrusion detection devices and valuable protection is provided to the property.

MATERIAL AND SUPPLY SALES

Ornamental Aluminum and Steel

A product that is both low maintenance and aesthetically pleasing, an ornamental fence most often will boost a property's curb appeal. It is also the easiest method for meeting and maintaining compliance standards.

Wood

The variety of options available with a wooden fence are only limited by the scope of your project. From privacy to picket to board and all points in between, a wooden fence is one of the easiest to customize. All of our lumber materials are pressure treated according to industry standards.

Farm

We offer a wide variety of products and services to provide the optimal fencing solutions for a property's specific needs. Along with our featured vinyl rail fence, we offer also specialty suppliers, Centaur and Gallagher, and are able to see to the unique needs of our clientele.

Vinyl

While being one of the most maintenance free fence solutions, this may also be one of the greatest investments. With options such as post and rail, picket, privacy, and semi-private, this type of fence is among the most versatile available.

Who Are We?

- Established and family owned since 1965
- American Fence Association member as well as Carolinas AGC, BBB, National Association of Home Builders
- One of only 3 AFA Blue Ribbon Contractors in the Carolinas
- Certified Fence Professionals on staff

Chain Link

The most common and cost-effective type of fence available. With the ability to conform to the lay of the property, this fence offers safety and security for family and pets. In most cases, the seamless line of this fence becomes unobtrusive and useful while also being practical and low maintenance.
