

**GASTON**  
**FENCE CO. INC.**

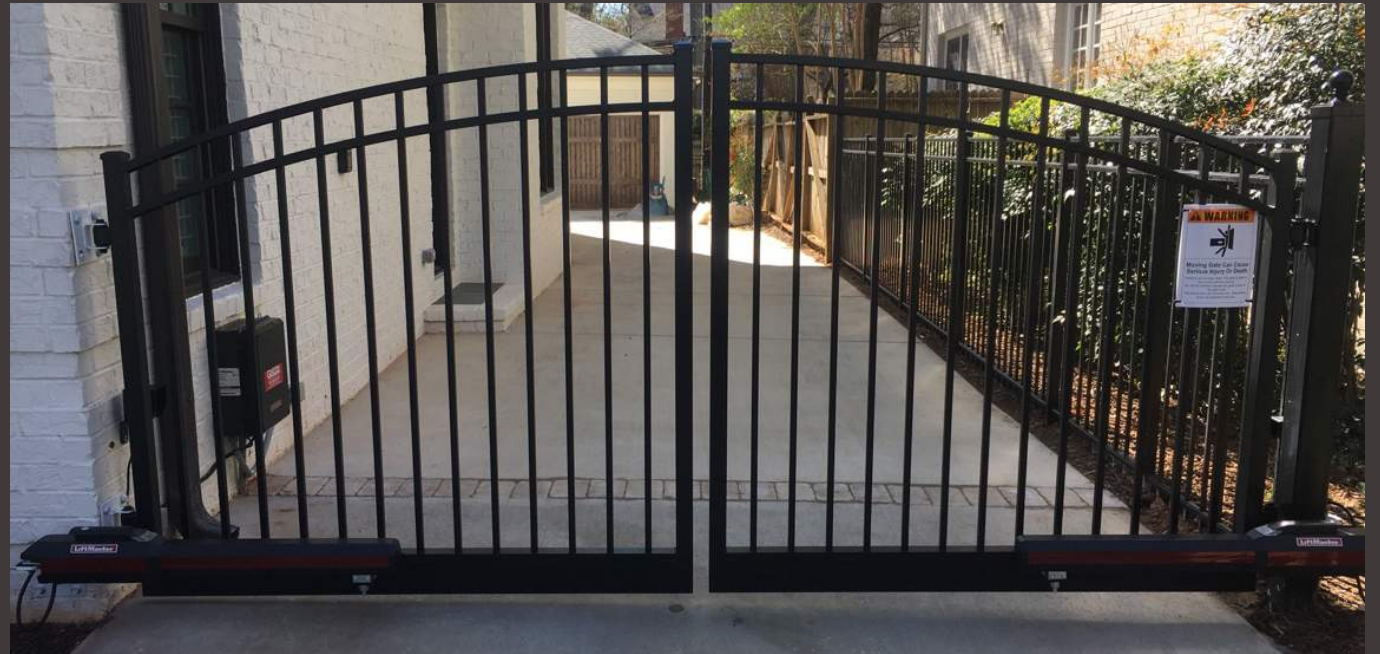

*Since 1965*

Gaston Fence Company, Inc. believes in providing the best possible customer service for all of our clients. With our on-site, state-of-the-art custom fabrication facility, we not only have the ability to supply you with all your fencing needs, we also have the capability to provide you with the perfect gate to accent your property and security needs.

Adding an operated gate system to your property will help you by combining reliable access controls with superior gates for a total entry solution.

From gated communities which limit security access to the individual homeowner looking to have an added sense of security, Gaston Fence Company, Inc. has a variety of options to meet your needs.

Unlike most gate manufacturers, Gaston Fence Co, Inc. has the ability to fabricate your gate to the exact dimensions of the opening or designated space. This allows for a perfect fit without making significant field adjustments or alterations.

With our trained professionals and the use of our own equipment, each job or project is completed with the highest standards.

Gaston Fence holds memberships to some of the industry's top client/contractor-based management associations as well as having individuals on staff nationally designated as Certified Fence Professionals and Certified Automated Gate Operator Installer.

Significantly, Gaston Fence Co, Inc. has been awarded the designation of American Fence Association's Blue Ribbon Contractor.

Blue Ribbon Contractors are those AFA companies that demonstrate the highest ethical and professional standards in our industry and that are actively engaged for the advancement of the profession.

Our company's designation as a Blue Ribbon Contractor, along with our Certified Professionals on staff, gives us a clear path to differentiate our company from others in the business.
